DRESSER ST		ORTON MAROTTA WY	

The purpose of the Water Main Flushing program is to improve drinking water quality for residents and businesses.

This work will take place between the hours of **10:00 P.M. and 6:00 A.M.**

The flushing process may cause discolored water and a reduction in pressure. Any discoloration of the water will be temporary and is not harmful. The water will continue to be safe for drinking, cooking and bathing. Though the water is safe to drink, you will probably want to flush your taps clear of any discolored water. You should also avoid washing clothes in the discolored water as it may stain your laundry.

If the condition persists, please contact BWSC's 24 Hour Service at (617) 989-7000.

BWSC appreciates your patience as we work to improve the quality of drinking water we will provide to the residents and businesses of Boston.

If you have any questions, contact BWSC's Operations Department at (617) 989-7000 or visit our website at www.bwsc.org.
