MWRA Water Main Maintenance May Cause Discolored Water In the areas below

The MWRA will be conducting maintenance to main line valves **during the month of May** in the following areas:

Allston/Brighton: (the corner of Chestnut Hill Ave and Beacon St. and Harvard St. at the Boston Line)

Fenway/Kenmore: (the corner of Beacon St. and St. Mary's St., the corner of Riverway Dr. and Longwood Ave, and the corner of Brookline Ave and Parkway Rd.)

Jamaica Plain: (the corner of Perkins St. and Prince St.)

Mission Hill: (the corner of River Rd. and Washington St.)

These impacted areas may see discolored water for up to three days after the work is completed. If discolored water does occur, it will result from a small amount of iron in local pipes. Please note that while safe for drinking, cooking and other uses, iron will stain light colored items in your laundry, especially when bleach is used. Residents may want to wait for the water to clear before using it.

For further information or inquiries, please contact Jeff McLaughlin at (617) 305-5762
