

**BOSTON WATER & SEWER COMMISSION  
SOUTH BOSTON SEWER SEPARATION PROJECT**

**Contract No. 21-309-012**

**CWSRF NO. 7012**

**Report for May 1 through May 31, 2024**

**OVERALL PROJECT UPDATE**

The Boston Water and Sewer Commission's South Boston Sewer Separation Project involves separating the combined sewer system in South Boston. The purpose of this project is to reduce pollution levels in Boston Harbor by substantially decreasing the number and volume of Combined Sewer Overflows into Fort Point Channel and Boston Harbor. The separation project is being undertaken by the Commission.

The South Boston Sewer Separation Project encompasses an area roughly delineated by Interstate 93 to the west, West Broadway, and West Second Street to the north and east, G Street to the east, and Devine Way to the south. Land use in the project area is characterized by residential neighborhoods; light industrial and large commercial buildings and complexes; small business and retail districts; civic, cultural, and educational facilities; and transportation-related sites.

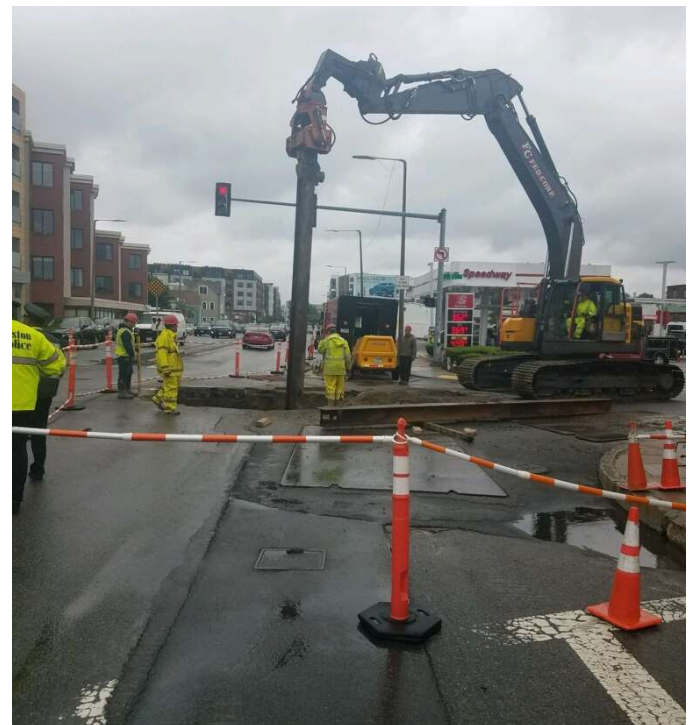

*Temporary Paving on Middle Street*

**CONTRACT 2 UPDATE  
THROUGH MAY 31, 2024**

Over the month of May, the contractor completed work at several locations, including: water main, storm drain and sewer replacement and installation on Woodward Street; water main replacement on Sayward Place; water main, sewer and storm drain replacement and installation on Middle Street; rehabilitation of sewer and installation of new storm drain on Tuckerman Street; rehabilitation of sewer on Old Colony Avenue; and water main replacement on Baxter Street from C Street to D Street.

**ONGOING AND UPCOMING WORK**

The contractor will continue with water main, storm drain, and sanitary sewer installation on E Street from West Seventh Street to Old Colony Avenue, and water, storm drain, and sanitary sewer installation on D Street from Old Colony Avenue towards West Seventh Street.

*Support of Excavation on D Street*
